

Keynote Luncheon: Wednesday, October 27

Keynote Speaker: Mr. Ken Wall

Back to the Future - GIS and Community Building

The MAGIP Technical Committee is pleased to announce Ken Wall as the 2010 Fall Technical Session Keynote Speaker. Ken is the president of Missoula-based Geodata Services, Inc. and is widely known as one of the leading experts in using GIS as a decision support tool for community planning and visualization. During the Keynote Luncheon, Ken will explore how we are using technology, software, and mobile devices to transform ourselves, our interaction with our communities, and the collaborative aspects of GIS. We are not gadgets, the tools we use for GIS are—but the networks that link us, GIS, and our communities blur that distinction. Join us as Ken discusses the new challenges we face as GIS professionals when GIS becomes part of our transportation, our entertainment, our communication...and even our clothes!
